**Leadership Update:**

**CEO Update**

Tom provided his leadership update, including the direction of COVID data collection and that it will not be reported in the future, however the Board will be notified if there is a spike in cases.

Tom provided project updates, including work on a Hospice partnership so that CMC can provide hospice care to the health district. He also stated that there were two contractors who will be bidding on the Short Term expansion of the lower lot.

David Donnahoo spoke to the employee bonuses and 2023 health benefits, which was very well received. The staff was very grateful of the efforts to reduce the cost of medical benefits.

Tom notified the Board that he is beginning Provider Contract Renewal as most of the providers will be needing new contacts in 2023. He has engaged Gallagher Corporation to assist with compensation and related data.

Tom notified the members of the Board that the Valley County Sheriff’s Department ended their contract with Cascade Family Practice for regular inmate care. We will still provide emergency care for inmates.

Tom spoke to the need to start researching a new EMR, given that Athena will not be updating its hospital (ER, Inpatient) product. The best option would be Epic, given both Saint Alphonsus and St Luke’s both use it. We would need to piggyback on a larger system’s contract, for which conversations has started with St Luke’s Community Connect program.

Tom informed the board of a request to participate in a potential NY Times article about Rural Hospitals, which was supported by the members of the Board.

Lastly, Tom spoke to the need to be able to dispense acute care prescriptions, and that we have established a conversation with InstyMeds, a national company that provides a vending style option for patients who have been seen by the Clinic and the ER. We are able to dispense limited prepacks for patients seen only in the ER.

**Mission, Vision, and Values:**

Tom and David Gough provided more direction on what each Mission, Vision and Values should look like, providing examples that came out of the Executive Committee.
